

QUEST FOR GROWTH

QUARTERLY UPDATE 30 SEPTEMBER 2019

SCHEDULE FOR PUBLICATION:

24 October 2019 at 5.40 PM

Press release available at
www.questforgrowth.com

Results

In the first nine months of 2019 the net asset value per share increased by 6.6% to € 7.59, compared to € 7.12 on 31 December 2018. The company made a profit of € 7.8 million (€ 0.47 per normal share), comparable to a loss of € 6.8 million (- € 0.43 per ordinary share) over the same period of 2018.

On 30 September the share price amounted to € 5.66, compared to € 6.02 at the end of last year. The share price therefore fell by 6.0%, against the trend of the rising net asset value. As a result, the price discount compared with the net asset value increased significantly to 25.4% on 30 September 2019 (compared to 15.5% on 31 December 2018).

Market environment

Despite the continued weakening of the global economy, most stock markets recovered slightly in the third quarter of 2019. The European stock market index STOXX Europe 600 Net Return therefore increased by 19.5% compared to the beginning of the year. "Food & Beverage" was the best performing sector in Europe with a 34% increase over

the past nine months. The STOXX Europe Small 200 Net Return Index achieved a performance of 18.4% over the first nine months of the year. The dollar rose strongly against the euro, especially in the third quarter, and an exchange rate below 1.1 was again reached.

Investments in listed companies

The estimated gross performance of the listed shares portfolio was approximately 7% over nine months. The weak performance of two large positions affected the portfolio in the third quarter: TKH dropped 16% after the publication of weak half-year results while CEWE fell 11% without any bad news. Umicore (+ 25%) was one of the few outliers in the third quarter. Since the beginning of the year CEWE (+ 27%), Akka Technologies (+ 44%) and Nexus (+ 28%) have contributed the most to the performance.

In the third quarter two smaller positions in the portfolio were fully sold due to a sharp deterioration in their business: Exel Industries saw its profitability in the agri-divisions fall sharply and Biocartis published very disappointing sales figures in September. Shares such as SAP, Steico and Jensen-

Group were purchased, while a partial profit was taken on Akka Technologies, TKH and Aliaxis. In September PSI Software, based in Berlin, was added to the portfolio.

Investments in unlisted companies

Sequana Medical, one of the co-investments made by Quest for Growth with the Capricorn Health-tech Fund, raised € 27.5 million in a successful IPO in February. The majority of the shares that Quest for Growth holds are subject to a 365 days lock-up and are valued in the portfolio on 30 September with a discount of 7.5%, which will be further reduced by 1.5% each month. Quest for Growth also made a follow-up investment in NGData.

Investments in venture capital funds

In the third quarter the valuation of the Capricorn Cleantech Fund increased, mainly due to the price increase of Avantium. In the Capricorn Health-tech Fund the further decline in Mainstay's price was largely offset by the price increase of Sequana Medical. The Capricorn Health-tech Fund also made a follow-up investment in iSTAR Medical. This medical

device company, which develops new ophthalmic implants for the treatment of glaucoma, has completed a series C funding of € 40 million. In addition, the fund received the first milestone payment following the sale of Ogeda to Astellas Pharma in 2017. The Capricorn Health-tech Fund will therefore implement a capital reduction whereby Quest for Growth will receive € 1.5 million. Capricorn ICT Arkiv made a follow-up investment in NGData.

Outlook

In August, the German IFO Business Climate index fell below 95 for the first time since 2012. In the US, the ISM Manufacturing PMI fell below the level of 50 and reached in September the lowest level since 2009. These indicators point to a further weakening of the economy in the near future. Business results are also expected to continue to be under pressure. The stock market rise is mostly supported by defensive growth stocks, but these have become expensive.

VALUATION QUEST FOR GROWTH

PROFILE

QUEST FOR GROWTH, is a privak/pricaf, a public alternative investment fund (AIF) with fixed capital under Belgian law, managed by Capricorn Partners NV. The diversified portfolio of Quest for Growth is for the most part invested in growth companies listed on European stock exchanges, in European unquoted companies and in venture capital funds. Quest for Growth focuses on innovative companies in areas such as information and communication technology (ICT), technologies for the healthcare sector (Health-tech) and clean technology (Cleantech). Quest for Growth has been listed on Euronext Brussels since 23 September 1998.

Closed-end private equity funds, submitted to the Royal Decree of 10 July 2016 on alternative institutions for collective investment in unquoted and growth companies, are an investment instrument designed to offer individual investors a suitable framework in which to invest in unquoted and growth undertakings.

A closed-end private equity fund is a closed undertaking for collective investment (UCI) which is under the supervision of the Financial Services and Market Authority (FSMA) and subject to specific investment rules and obligations as regards the distribution of dividends.

Investment rules

- 25% or more of the portfolio must be invested in unquoted companies;
- 70% or more of the portfolio (qualified investments) must be invested in
 - unquoted companies;
 - quoted growth companies with a market capitalisation of less than 1.5 billion euros;
 - AIF's with an investment policy similar to that of the private equity fund.

A private equity fund may not invest more than 20% of its portfolio in a single undertaking.
